

# Welcome to (OS)2G!

Operating Systems & Open Source Group

Jan 22 2026

# Welcome to (OS)2G!

TODO OS2G image

TODO Tux

## ■ What is os2g?

- The Operating Systems & Open Source Group
- Computer science social club
- Focuses on Linux and Open-Source software

## ■ What do you do?

- Give talks on technical topics
  - Computer hardware
  - Cybersecurity
  - Server administration
  - ...and more!
- Host events and social days

# Meetings

We have 3 types of meetings:

■ Talk days

■ Events

■ Social days

# Introductions

■ Carston

■ President

■ Computer & Electrical  
Engineering

■ Alex

■ Primary  
Programmer

■ Computer Science

■ Cale

■ Treasurer

■ Computer Science

# What is...

## ■ Linux?

- A family of Operating Systems (like Windows or macOS)
  - `yes i know its gnu/linux...`
- Less of a walled garden
- More of a ship you can sink at will
  - But not as scary as people make it out to be
  - Easy to dual-boot

## ■ Practical applications

- Great environment for coding
- Universal standard for servers
- Makes later comp sci classes easier
- Computer necromancy

## ■ FOSS?

- Free and Open Source Software
- Backbone of the modern computer
  - ffmpeg
  - Git
  - Apache HTTP Server
  - Docker
  - Node.js
  - Linux itself
- Drives innovation
- Better the experiences of everyone

## ■ What we can do about it

- Contribute!
  - "Open-Source" means anyone can
- FOSS Jam

# Upcoming Events

## ■ Involvement Fair

- Next week (Jan 29)
- 4-6:30 PM @ the Union
- Feel free to stop by our booth!

## ■ Install-a-thon

- The following week (Feb 05)
- Install linux
  - Raspberry Pi Zero W
  - Dual-boot
  - Wipe your laptop in the middle of the semester!

## ■ Later on...

- Microtalks
- Mana Games
- FOSS Jam

## ■ Join our Discord!
